## **Ruby on Rails engineer - CKD Technology Partners**

Calgary, AB

[mingca819@gmail.com](mailto:mingca819@gmail.com)

4159928015

Degree in Computer Science, I am a Web developer with 8 years experience in building high quality web applications. I have developed quality webapps on Ruby on Rails since 2008. Worked 6+ years with Rails in TDD with RSpec, Capybara and selenium. 3+ years in React / React Native and Angular. I am passionate about emerging technologies, building scalable software, and supporting industry best practices. Developing a number of complex systems such as e-commerce sites, inventory management systems and scheduling systems, I could feel every client's idea. My experience is also augmented with knowledge in 3NF database normalization, usage of design patterns in everyday programming and building micro services.

## Work Experience

---
